410-D-8	Double Arched Mid 50%	8
410-D-9	Double Arched Custom %	9

For Double Tall doors, please use the above chart and the example pictures shown on the previous page to help determine the correct price group for the chosen Double Tall door selection and also; how to determine the correct terminology when placing the order. Most door styles are available in Double Tall configurations. To avoid confusion we have chosen to use the 400 and 410 door styles to display all of the variations possible with Double Tall door styles. If a Double Tall door is required in a style other than 400 or 410, please indicate this on the order form. Available door styles are shown on pages 18-20. **For Double Tall door styles with custom mid rail placement, please specify the dimension from the top of the door to the top of the mid rail.**

If the Double Tall door selection includes a HL or a HR style, please add \$x.xx per square foot to the group level pricing.

Double Tall doors with a size greater than 24"x96" and/or 36"x42" receive wainscotting pricing outlined on page 30, 31.
